# At Conestoga Copiers

you  
can  
expect  
excellence

- Our commitment to quality in sales, service, training, and support result in a high level of customer satisfaction and a successful track record with some of the largest businesses in the area.
- Local ownership and customer focus means technical service and support are right next door, offering you quick, responsive solutions to your individual needs.
- Experience and expertise combined with state-of-the-art products ensure that you have the advantage of the latest technology to empower your business.

in  
customer  
service and  
support

Professional, reliable and courteous service. Perhaps no other element is more critical, and more often overlooked. Our award-winning technical service and support team guarantees responsive, professional and skilled technical support every time, to ensure peak performance of our systems.

in  
business  
solutions

Every client has unique requirements. We evaluate the creation, output, sharing and storage of documents within your organization. From our wide selection of high performance full color and monochrome systems, we can then design the best business solution for your office.

in  
workplace  
productivity

Our role is to help you identify corporate objectives, research the technical options and provide recommendations that align your office technology with your business goals. This allows you to focus on managing your business, not your technology.
